

BABJEE AGRO INDUSTRIES

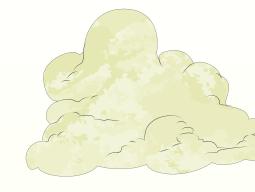

Technology to make agriculture easy and affordable

WHAT IS BABJEE AGRO?

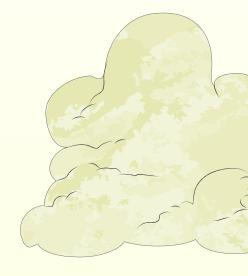

Babjee Agro Industries is a prominent manufacturer specializing in the production of high-performance chaff cutters, essential machinery for efficiently cutting fodder used in livestock feeding. With years of expertise in the agricultural machinery industry, Babjee Agro Industries provides innovative solutions to enhance farm productivity and livestock care. The company's chaff cutters are designed to deliver precision cutting, easy operation, and high durability, enabling farmers and agribusinesses to process various types of fodder quickly and effectively.

At Babjee Agro Industries, we prioritize advanced technology, quality materials, and robust engineering to ensure that each chaff cutter meets the highest standards of performance and reliability.

Our products cater to a wide range of agricultural needs, from small-scale farms to large commercial operations, supporting better feeding practices for healthier livestock.

We are committed to continuous research and development to improve the efficiency and functionality of our machinery. With an emphasis on sustainability, we aim to reduce the environmental impact of farming operations while maximizing productivity. Our customer-centric approach ensures tailored solutions that fit the specific requirements of our clients, backed by exceptional after-sales support.

Babjee Agro Industries serves both domestic and international markets, playing a vital role in the agricultural sector by contributing to improved farming techniques and better livestock management practices. Through our dedication to quality, innovation, and service, we are shaping the future of agricultural machinery manufacturing.

WHAT IS BABJEE AGRO PURPOSE ?

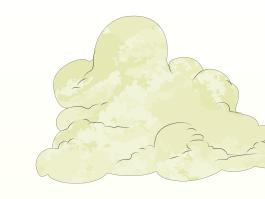

At Babjee Agro Industries, our purpose is to provide innovative, reliable, and efficient chaff cutters that empower farmers and agribusinesses to enhance their livestock feeding practices. We are dedicated to improving agricultural productivity and supporting sustainable farming by offering high-quality machinery designed to meet the unique needs of the farming community. Through our commitment to excellence, customer satisfaction, and continuous innovation, we aim to contribute to the growth of the agricultural sector while promoting eco-friendly practices and the welfare of livestock.

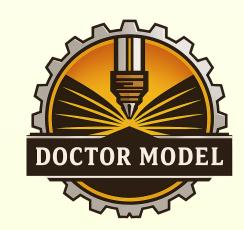

OUR BRANDS

We offer a wide range of high-performance chaff cutter machines designed to meet the diverse needs of farmers across India. Built with durable materials and precision engineering, our machines ensure smooth cutting, low maintenance, and long-term reliability. With models suited for small farms to large-scale operations, our products are trusted by dealers and wholesalers for their consistent quality and fast-moving sales. Whether you're looking to expand your agricultural product line or serve your customers better, our chaff cutters deliver unmatched value, performance, and dealer-friendly pricing.

WHEEL BARROW

STAINLESS STEEL WHEEL BARROW

DOGTOR MODEL BALL BEARING+FYBER TREY

Key Features:

- Type: Electric Chaff Cutter
- Material: MS Body with Premium Fiber Feeding Tray
- Motor Support: 2–3 HP Single Phase Motor Compatible
- Cutting Capacity: 600–800 kg/hr
- Blade System: High Carbon Steel Blades (Fine Cutting)
- Drive: Smooth Ball Bearing System (Low Noise & Less Load)
- Safety: Enclosed Belt & Guard Protection
- Use Case: Green Fodder, Dry Grass, Jawar, Maize
- Special: Fiber Tray = Easy Feeding & Safe Operation

DOCTOR MODEL ZULLA MODEL

Key Features:

- Type: Motor Operated Chaff Cutter
- Material: Heavy MS with Long Feed Hopper
- Cutting Capacity: 600-800 kg/hr
- Motor Support: 2-3 HP Single Phase
- Usage: Suitable for Small Dairy Farms
- Special: Low Power Consumption + Smooth Output
- Safety: Full Mechanical Guarding

DOCTOR MODEL JALI MODEL

- Type: Fine Cutting with Jali Control
- Material: MS Body, Powder Coated
- Motor Support: 2–3 HP Single Phase
- Cutting Capacity: 800–1000 kg/hr
- Control: Adjustable Jali for Fine / Medium Output
- Blade: High Carbon Sharp Blades
- Safety: Belt Guard + Tray Protection

- Type: Heavy Duty Chaff Cutter
- Body: Premium Grade MS with Reinforced Stand
- Motor Support: 3 HP Single Phase
- Cutting Capacity: 1500-1800 kg/hr
- Blade Quality: Hardened Steel Blades
- Special: High Stability, Designed for Continuous Use
- Safety: Full Guard Protection

DOCTOR MODEL REGULAR BLORE

Key Features:

- Type: Blower Type Chaff Cutter
- Material: Full MS Body
- Motor Support: 3 HP Single Phase
- Cutting Capacity: 1000-1200 kg/hr
- Output: Throws Fodder Direct into Trolley / Feed Area

Use Case: Bulk Feeding / Dairy Shed Use

Key Features:

- Model Name: Doctor Model Chota Bheem
- Type: Electric Chaff Cutter Machine
- Motor Power: 3HP Single Phase 2880 RPM
- Cutting Capacity: 800–1000 kg/hr
- Blade Type: High Carbon Steel
- Material: MS Body with Rust-Proof Finish
- Mobility: 4 PU Wheels
- Compact Size: Easily fits in small storage spaces
- Use Case: Suitable for Green Fodder, Dry Grass,
 Sugarcane, Maize Stalks
- Maintenance: Low maintenance, easy to clean and operate

DOCTOR MODEL BAHUBALI

- Model Name: Doctor Model BAHUBALI
- Type: Electric Chaff Cutter Machine
- Material: Robust MS Body with Rust-Resistant Coating
- Motor Power: 3HP Single Phase 2880 RPM
- Cutting Capacity: 1500-1800kg/hr
- Blade System: HIGH CARBON Steel Blades for Fine Cutting
- Mobility: Strong Metal Base with 4 Red PU Wheels
- Safety: Enclosed Belt System & Safety Guard
- Use Case: Suitable for Green Fodder, Dry Grass,
 Sugarcane, Maize Stalks
- Maintenance: Low maintenance design with easy cleaning access

DOGTOR MODEL SUPREME

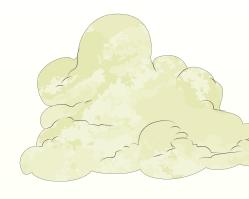

Key Features:

- Model Name: Doctor Model SUPREME
- Type: Electric Chaff Cutter Machine
- Material: Robust MS Body with Rust-Resistant Coating
- Motor Power: 3HP Single Phase 2880 RPM
- Cutting Capacity: 1800-2000kg/hr
- Blade System: HIGH CARBON Steel Blades for Fine Cutting
- Mobility: Strong Metal Base with 4 Red PU Wheels
- Safety: Enclosed Belt System & Safety Guard
- Use Case: Suitable for Green Fodder, Dry Grass,
 Sugarcane, Maize Stalks
- Maintenance: Low maintenance design with easy cleaning access

BINDER INDER TOKA

Key Features:

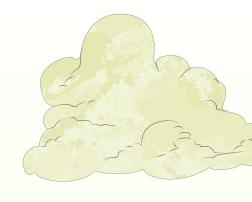

- Type: Reverse-Forward Gear Model
- Motor Support: 3 HP
- Drive: Gearbox + Shaft Drive
- Benefit: Easy Clearing of Jammed Fodder
- Capacity: 1600-1800 kg/hr

Best For: Continuous Heavy-Load Operation

HANS REVERS FORWARD

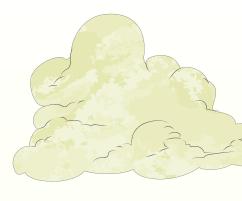

- Type: Heavy Gear Reverse-Forward Model
- Motor Support: 3 HP
- Capacity: 1200-1600 kg/hr
- Drive: High Strength Gearbox

Use: Green / Dry / Maize / Sugarcane

- Material: Extra Heavy MS Body
- Drive: Gearbox Reverse-Forward System
- Capacity: 1700-2200 kg/hr
- Special: Long Life Bearings & Bushes

Usage: High Volume Dairy Farming

DOCTOR MODEL TRACTOR MODEL

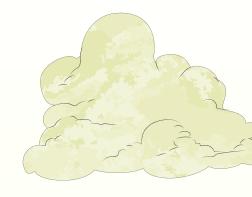

- Type: Tractor PTO + Optional Motor Operated
- Power Requirement: 30 HP & Above Tractor
- Cutting Capacity: 3000–5000 kg/hr (High Volume Output)
- Blade System: Tempered High Carbon Steel Blades (Long Life & Sharp Cutting)
- Drive Mechanism: Direct PTO Shaft Drive (High Efficiency, No Power Loss)
- Use Case:
- Large Dairy Farms
- Commercial Fodder Supply
- Village Milk Collection Centers
- Fodder Storage & Bulk Feed Preparation
- Special Feature:
- Can Run Without Electricity
- Suitable For Fields, Cattle Sheds & Farm Yards
- Heavy Duty Structure for Continuous Operation
- Stable Base for Vibration-Free Performance

HTP 22&30 NO.

- Brass (Rust Resistant) Pump Head
- Pressure: 15–20 bar (Approx.)
- Suction: 15-22 L/min
- Compatible with 1.5 HP to 3 HP engine/motor
- Lightweight and easy to carry
- Best for: Small farms, spot spraying, portable use
- Fuel efficient & low maintenance
- Optional basic or frame-mounted setup

HTP 30 No.

- Heavy-Duty Brass Head
- Pressure: 25-30 bar (Approx.)
- Suction: 28-35 L/min
- Compatible with 3 HP to 5 HP engine/motor
- Heavy build for continuous, long-duration use
- Best for: Medium to large farms, long pipe spraying, orchard use
- High efficiency & strong output
- Recommended with strong iron frame

Common Benefits:

- Long life and easy to maintain
- Works with petrol, diesel, or electric motor
- Made for Indian farm conditions
- Trusted performance for pesticide and fertilizer spraying

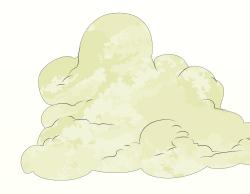

PETROL ENGINE NYLON AND IRON SHAFT

Petrol Engine – Nylon Shaft

- Lightweight body for easy handling
- Rust-proof nylon shaft cover
- Smooth recoil start system
- Low fuel consumption
- Maintenance-free shaft
- Best for: Portable tools, power sprayers, HTP sets
- Less noise and vibration
- Budget-friendly and easy to carry

Petrol Engine – Iron Shaft

- Heavy-duty iron shaft for tough use
- High torque and powerful output
- Durable full metal body
- Withstands long continuous operations
- Stable performance with less vibration
- Best for: Chaff cutters, weeders, HTP, commercial use
- Better heat dissipation
- Strong build for rugged farm work

Common Benefits:

- Reliable 4-stroke petrol engine
- Recoil start with fuel-efficient performance
- Compatible with multiple agri tools
- Designed for Indian farm conditions
- Easy to repair and service

7.5 HP DIESEL ENGINE - SELF START

Engine Type:

- Powerful 7.5 HP, 4-stroke Diesel Engine
- Equipped with Self Start System (no manual cranking required)
- Designed for continuous heavy-duty farm use

Build & Design:

- Heavy cast iron body for strength and durability
- Industrial-grade finish for tough conditions
- Anti-vibration mounting base

Performance:

- High torque output for heavy loads
- Low RPM engine suitable for long operations

Fuel Efficiency:

- Runs longer on less diesel
- Optimized fuel injection system

• Cost-effective for daily farm tasks **Cooling System:**

- Air-cooled or water-cooled variant available
- Designed for all-weather operation

Applications:

- Perfect for:
 - Chaff Cutter Machines
 - HTP Pumps
 - Water Pumps
 - Flour Mills
 - Power Weeders

Convenience & Maintenance:

- Fitted with self-start terminals and battery support
- Easy to maintain and service
- Spare parts easily available

В

Benefits:

- Saves time and labor
- No need for manual handle starting
- Built for Indian farm conditions
- Long life engine with proper maintenance

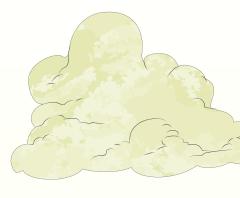

PETROL POWER SPRAYER

- Powerful 4-stroke petrol engine
- Easy recoil (manual) start system

Performance:

- High pressure for long-distance spraying
- Uniform mist and droplet size for better coverage
- Suitable for large farms and orchards

Tank Capacity:

- 20 to 25 liters (varies by model)
- Durable plastic or fiber tank

Spraying Range:

- 6-10 meters (depends on nozzle & engine)
- Ideal for tall crops, trees, vineyards

Fuel Efficiency:

- Low fuel consumption
- Long runtime on a single fill

Build Quality:

- Rust-proof metal and fiber parts
- Shoulder/back strap support for easy carrying
- Shockproof and weather-resistant frame

Best For:

- Pesticide & insecticide spraying
- Liquid fertilizers and foliar nutrition
- Orchard, cotton, sugarcane, vegetable farms

BENEFITS:

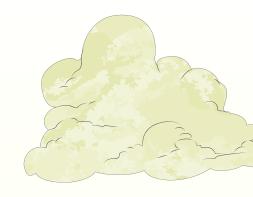

- Fast spraying saves time & labor
- Works even in remote areas (no electricity needed)
- Easy to operate, maintain, and repair
- Made for tough Indian farming conditions

DHANLAXMI BATTERY SPRAYER (12V 20AH)

Power System:

- Heavy-duty 12V 20Ah rechargeable battery
- Double motor / high pressure pump
- Smooth & low-noise operation

Performance:

- Uniform and powerful spray for better crop protection
- Suitable for large fields and continuous spraying
- Gives steady pressure for equal droplet size

Tank Capacity:

- 16 to 20 liter durable tank (model wise)
- Made from strong fiber/plastic, crack-resistant
- Easy to fill, clean, and carry

Spraying Range:

- 2-5 meters spray distance (depends on nozzle)
- Ideal for cotton, sugarcane, vegetables, orchards
- Comes with multiple nozzle options

Battery Backup:

- 6-8 hours continuous working on full charge
- No fuel required → zero daily running cost
- Comes with fast charger

Build Quality:

- Lightweight body with strong frame
- Comfortable back/shoulder strap for easy carrying
- Designed to handle dust, heat & field conditions

Benefits:

- Saves labor & time covers more area quickly
- Easy to use anyone can operate
- Works in remote farms (no electricity needed during use)
- Made for tough Indian farming conditions

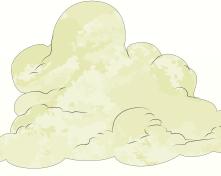

Material:

- Unbreakable body strong & long-lasting
- High-quality plastic and metal construction
- Lightweight and easy to carry

Operation:

- Manual push type no fuel or electricity required
- Easy hand-operated sowing system
- Ideal for all age groups to use comfortably

Seed Compatibility:

- Suitable for:
 - SoybeanMaize
 - Groundnut
 - Cotton
 - Moong
 - Chana
- Wheat (with correct settings) Adjustable seed metering system

Best For:

- Small to medium-sized farms
- Kitchen gardens
- Organic and row crop farming

Benefits:

- Saves time, labor, and seed wastage
- Increases sowing accuracy and speed
- Works smoothly in all types of soil
- Low-cost and farmer-friendly innovation

Why Farmers Prefer It:

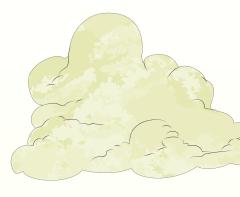

- No maintenance required
- Eco-friendly, no fuel costs
- Made for Indian farm conditions
- Portable and ready-to-use in the field

Model: 7 HP - 170F Petrol Power Weeder

- **Engine:**
- 170F Petrol Engine (4-Stroke)
- Power Output: 7 HP
- Recoil Start

Transmission:

- Gear Drive (Lightweight)
- 2 Forward + 1 Reverse Gear

Working Width:

- Adjustable: 24 to 40 inches
- Depth: 4-6 inches

Fuel Efficiency:

- Petrol: ~750 ml/hour
- Low Vibrations

@ Best For:

- Vegetable & Horticulture Farms
- Small Landholders

Q Why Choose Doctor Model Power Weeder?

- Heavy Duty Build Quality
- Best-in-Class Fuel Efficiency
- All Attachments Compatible
- Excellent After-Sales Service
- Made for Indian Terrain

POWER WEEDER 173F DIESEL

Model: 6 HP – 173F Diesel Power Weeder

Engine:

- 173F Diesel Engine (4-Stroke)
- Power Output: 6 HP (approx.)
- Recoil Start Easy to Operate

Transmission:

- Gear or Chain Drive (Varies by Variant)
- 2 Forward + 1 Reverse Gear

Working Width:

- Adjustable: 24 to 42 inches
- Depth: 4–6 inches

Fuel Efficiency:

- Diesel: 700-800 ml/hour
- Low Maintenance Engine

Best For:

- Vegetable Farming, Row Crops, Orchards
- Small to Medium-Sized Farms

POWER WEEDER 178F DIESEL HD

Model: 7 HP - 178F Diesel Power Weeder (Heavy Duty)

- **Engine:**
- 178F Diesel Engine (4-Stroke)
- Power Output: 7 HP
- Recoil / Optional Electric Start
- Transmission:
- Heavy Duty Gear Drive
- 2 Forward + 1 Reverse Gear

Working Width:

- Adjustable: 24 to 42 inches
- Depth: 4–6 inches

Fuel Efficiency:

- Diesel: ~750-850 ml/hour
- Built for Continuous Operation

Best For:

- Medium to Large Farms
- Tough Soil, Sugarcane, Cotton
- Multipurpose Attachments

POWER WEEDER 186F DIESEL

Model: 9 HP – 186F Diesel Power Weeder

Engine:

- 186F Diesel Engine (4-Stroke)
- Power Output: 9 HP
- Recoil / Optional Electric Start

Transmission:

- Gear Drive (Reinforced)
- 2 Forward + 1 Reverse Gear

Working Width:

- Adjustable: 30 to 48 inches
- Depth: 6-8 inches

Fuel Efficiency:

- Diesel: ~900-1000 ml/hour
- For Long Duration Work

Best For:

- Large Fields, Banana, Paddy
- Heavy-Duty Farming
- Tractor Alternative

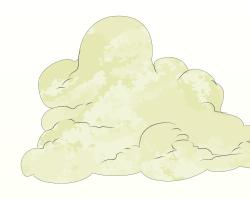

- High-Grade Stainless Steel Body Rustproof & Long-lasting
- Heavy-Duty Frame Designed for tough farm and construction work
- Large Carrying Capacity Suitable for fodder, tools, materials & more
- Smooth Wheel Movement Reduces effort while pushing
- Ergonomic Handle Design Comfortable grip for easy handling
- Durable Thick Tray Prevents bending and dents
- Stable Balanced Design Provides better control & load stability
- Easy to Clean & Maintain Hygienic and corrosion-resistant
- Suitable for Farms, Factories, Warehouses, and Construction Sites

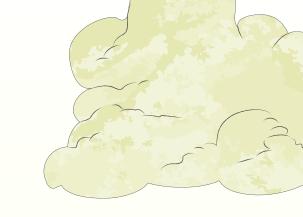

We appreciate your time!
